10th Meeting of the International Confocal Working Group (ICWG)
September 28th, 2012 (Friday)  6:00 pm –9:00 pm
BEST WESTERN PREMIER
Hotel Majestic Plaza
Štěpánská 33
110 00 Prague 1
Czech Republic
Phone: (+420) 221 486 100

AGENDA:

18:00  Introduction
S. González

INFLAMMATORY CONDITIONS AND COSMETICS session:

18:10-18:25' (15’) “State of the art of RCM on pigmentary disorders”
P. Bahadoran
Departments of Dermatology and Parasitology, Archet-2 Hospital, Nice, France

18:25-18:32' (7’) “From skin to eye. The confocal in vivo aspect of normal and pathological ocular apparatus: a challenge for the dermatologist.”
*Dermatology unit  ** Ophtalmology Unit CHU of Saint -Etienne France

Elke C. Sattler, Tanja Maier, Thomas Ruzicka and Carola Berking
Department of Dermatology and Allergology, Ludwig-Maximilian University Munich, Germany

Venturini M¹, Arisi M¹, Franceschini F², Cavazzana I², Gonzalez S³, Calzavara-Pinton PG¹
¹Department of Dermatology, ²Chair and Unit of Rheumatology and Clinical Immunology, University of Brescia, Spedali Civili Hospital, Brescia, Italy, ³Memorial Sloan-Kettering Cancer Center, Faculty of Dermatology Service, New York, New York, USA

Q & A
18:55-19:02 (7’) “Morphological characterisation of Solar Lentigines by in vivo Reflectance Confocal Microscopy: a longitudinal approach”
Caroline Pollefliet a, Hugo Corstjens a, Salvador González b, Lieveke Hellemans a, Lieve Declercq a, Dan Yarosh c
a Estée Lauder Companies, Biological Research Department, Oevel, Belgium, b Memorial Sloan-Kettering Cancer Center, Faculty of Dermatology Service, New York, New York, USA, c Estée Lauder Companies, Research Park, Melville, New York, USA

19:02-19:09 (7’) "Evaluation of vitamine E efficacy in protecting from SLS skin insult by means of confocal microscopy"
Department of Dermatology, University of Modena and Reggio Emilia, and *ICLID - Milan, Italy

19:09-19:16 (7’) “Dermoporosis”
JL López Estebaranz, R. Gamo-Villegas, A. Pampin
Dermatology Service, Fundación Alcorcon, Madrid, Spain

19:16 -19:23 (7’) ”Confocal laser microscopy and optical coherence tomography of wound healing after fractional laser therapy”
K. Poloczek, R. Kaestle, J. Welzel
Department of Dermatology, General Hospital Augsburg, Germany

Q&A

SKIN CANCER session:

19:32-19:42 (10’) "Intraoperative use of RCM in the diagnosis of longitudinal melanonychia"
Department of Dermatology, Centre Hospitalier Lyon Sud, Lyon 1 University, France

19:42-19:49 (7’) “RCM as non-invasive tool for monitoring the outcome of MAL-PDT of superficial BCC”.
M. Venturini, R. Sala, S. Gonzalez. PG. Calzavara-Pinton.
Department of Dermatology, University of Brescia, Spedali Civili Hospital, Brescia, Italy, 2Memorial Sloan-Kettering Cancer Center, Faculty of Dermatology Service, New York, New York, USA

19:49-19:56 (7’) “Assessment of the in-vivo effects of ingenol mebutate 0.05% gel for the treatment of actinic field cancerization by reflectance confocal microscopy”
Ulrich M1, Vöker-Call M1, Lange-Asschenfeldt S1, Röwert-Huber J1, Østerdal ML2, Skak K2, Skov T3, Stockfleth E1
1Department of Dermatology, Charité Universitätsmedizin Berlin, Germany; 2Leo Pharma A/S, Medical Department & Department of Biostatistics
19:56-20:03 (7’) “RCM diagnostic features of Extramammary Paget disease- relevance for differential diagnoses”
VC Sánchez, J Cuevas, S González
Dermatology Service, Hospital HM Sanchinarro, CEU San Pablo University, and Pathology service, Guadalajara Hospital, Alcalá University Madrid, Spain, Dermatology Service, Memorial Sloan-Kettering Cancer Center, New York, USA

20:03-20:10 (7’) “RCM meaning of Black blue diagnostic features in thick melanomas”
C Longo, I Zalaudek, G Argenziano, G Pellacani
Dermatology and Skin Cancer Unit, Arcispedale S Maria Nuova, Reggio Emilia, and University of Modena and Reggio Emilia, Italy

20:03-20:10 (7’) “Red Nodules”
E. Moscarella, I. Zalaudek, M. Agozzino, H Vega, C. Cota, C. Catricala, G. Argenziano, M. Ardigo
Department of Dermatology, University of Modena and Reggio Emilia, Modena, San Gallicano, Roma, Italy

20:10-20:17 (7’) "Handheld RCM: New and fast approach for the diagnosis of skin cancer"
S Puig, C Carrera, J Malvehy
Hospital Clinic, Barcelona, Spain

Q&A

20:30-20:40 ICG research studies
Update on Inflammatory conditions
Marco Ardigo
Dermatology Department, San Gallicano, Roma, Italy

CONCLUSIONS
