Course Description

This three-day symposium is designed to update healthcare professionals on the latest advances in dermatological developments in the diagnosis and management of skin diseases with a focus on innovative devices and coding practices. This symposium is comprised of lectures and workshops by leading experts in the field of dermatology. On the last day of the conference, participants will be able to take part in a confocal microscopy workshop where they will be trained by experts in the field on the basics of confocal microscopy, and how to use it for diagnosis and treatment for a variety of cutaneous conditions.

Target Audience

Dermatologists, dermatopathologists, residents, fellows, medical students and other allied health professionals.

Objectives

Upon completion of this CME activity, the participant will be able to:

- **Objective 1:** Identify and apply recent advances in non-invasive imaging techniques to improve the diagnostic accuracy and monitoring of treatment for both benign and malignant skin conditions.
- **Objective 2:** Utilize confocal microscopy in the diagnosis and management of a variety of skin diseases.
- **Objective 3:** Identify updates and side effects of field treatments for actinic keratosis in order to improve management and outcome.
- **Objective 4:** Evaluate research outcomes on the most up to date treatment for common dermatological conditions, including psoriasis, alopecia, and nail diseases to provide the best treatment to their patients.
- **Objective 5:** Identify and utilize new and emerging techniques for laser surgery and light therapy treatments and how they can apply it in their clinical practice.
- **Objective 6:** Assess both clinical endpoints and laser safety, while also evaluating the potential complications when using these lasers and technologies.
- **Objective 7:** Improve coding skills with the latest information on new and revised medical and ICD-10 codes to improve accuracy of patient diagnosis.

Accreditation

The Icahn School of Medicine at Mount Sinai is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designations

The Icahn School of Medicine at Mount Sinai designates this live activity for a maximum for 20.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Mount Sinai School of Medicine, The Innovations in Aesthetic, Medical, and Diagnostic Dermatology (Program #65501) is recognized by the American Academy of Dermatology for 20 AAD Recognized Credit(s) and may be used toward the American Academy of Dermatology’s Continuing Medical Education Award.

Verification of Attendance

Verification of attendance will be provided to all professionals.
